

hope for today

stronger for tomorrow

LifeNet4Families is an essential service provider in Broward County, providing a gateway to stability for people experiencing hunger, homelessness, and poverty.

LN4F has continued operating to provide lifesaving services during the pandemic. We are committed to helping our clients and community to recover during this crisis. The need for financial assistance and food is tremendous and growing each and every day – yet, we truly believe we can do even more with your help.

At this time, we need monetary donations, which will help us purchase items to help us serve the most vulnerable in our community. Through this "Essential Needs Fund," your support will help us fund such items as:

- Fresh, nutritious food to prepare hot meals each day.
- Shelf stable products for our delivered food programs: Essentials4Essentials (front line workers during the pandemic), Food4Thought (K-12 students) and pantry bags to provide food staples to those in need.
- Healthy lunch items for individual client snack bags.
- Hygiene products to support our daily shower program.
- Rental assistance to help provide shelter for the homeless.
- General operating costs to keep our facility and programs running to serve more than 400 people a day.

We are grateful for your support to help so many in need at this time. Please know that even the smallest donation counts – toward helping to make a difference in the life of someone who desperately needs help.
